

**ABCT Addictive Behaviors Special Interest Group
Faculty Interested in Taking Student(s) this Upcoming Year (2017-2018)**

Faculty	Graduate Program Degree Level	Location	Email	Extra Info
Claire Adams-Spears, PhD	PhD – Public Health	Georgia State University	cspears@gsu.edu	Research will focus on tobacco cessation, mobile health technology, and mindfulness-based treatment. Here is a link to the description of the doctoral fellowship: http://publichealth.gsu.edu/2016/09/15/phd-fellowship-smoking-cessation-mobile-health-technology/
Heidemarie Blumenthal, PhD	PhD – Behavioral Science	University of North Texas	Heidemarie.Blumenthal@unt.edu	Interests: Etiology of, and links between, adolescent/emerging adult substance use and internalizing problems. Website: http://psychology.unt.edu/teen-starlaboratory
Julia Buckner, PhD	PhD – Clinical Psychology	Louisiana State University	jbuckner@lsu.edu	Research interests: psychosocial factors (e.g., anxiety) related to substance use and use-related impairment; treatment for dually diagnosed patients
Kate Carey, PhD	PhD – Dept of Behavioral and Social Sciences in Public Health	Brown University	kate_carey@brown.edu	We offer a doctoral degree in Behavioral and Social Health Sciences; my research interests include college drinking interventions; associations between drinking and sexual health; and screening/brief interventions in community settings.

Faculty	Graduate Program Degree Level	Location	Email	Extra Info
Brad Conner, PhD	PhD – Counseling Psychology	Colorado State University	brad.conner@colostate.edu	Research interests in neurogenetics, personality and temperament underlying risky and addictive behaviors. Current studies include an imaging genetics study on hypodopaminergic functioning, a near infrared spectroscopy study looking at differentiating impulsivity and sensation seeking, and studies on the predictors of engagement in risky and addictive behaviors.
Theodore Cooper, PhD	PhD – Health Psychology/ M.A. – Clinical Psychology	University of Texas at El Paso	tvcooper@utep.edu	My global research interests are in the areas of disease prevention and health promotion. More specifically, I focus on issues in the prevention and treatment of clinical health including: tobacco use and cessation, other addictive behaviors, cancer prevention, obesity and sedentary behavior, and sexual risk.
Will Corbin, PhD	PhD – Clinical Psychology	Arizona State University	wcorbin@asu.edu	My work includes both lab-based alcohol administration studies and survey research designed to inform college alcohol prevention efforts. We currently have an NIH funded lab study and are actively developing two new alcohol prevention programs targeting college freshman.
Chris Correia, PhD	PhD – Clinical Psychology	Auburn University	correcj@auburn.edu	My students and I conduct research on substance use and addictive behaviors, with a primary emphasis on correlates and consequences of use among college students. We have a history of conducting survey and laboratory research, and occasionally conduct small-scale treatment outcome studies as well.

Faculty	Graduate Program Degree Level	Location	Email	Extra Info
Joseph W. Ditre, PhD	PhD – Clinical Psychology	Syracuse University	jwditre@syr.edu	My general research interest is in health psychology/behavioral medicine with a focus on the intersection of addictive behaviors, depression/anxiety, and comorbid medical disorders. We are currently working on two NIH-funded projects. http://asfaculty.syr.edu/pages/psy/ditre-joseph.html
Sara Dolan, PhD	PsyD - Clinical Psychology	Baylor University	Sara_Dolan@baylor.edu	My research is focused on neuro-psychological function in persons with substance abuse and other impulse-control disorders. Baylor's PsyD program is run like a PhD program, with a small cohort of students in a mentorship model. Students complete empirical research, and at this point, a majority obtain authorship on peer-reviewed publications.
Robert Dvorak, PhD	PhD – Clinical Psychology	University of Central Florida	Robert.Dvorak@ucf.edu	Research interests in substance use, self-regulation, and ecological momentary interventions (see www.robdvorak.net)
Adam Goodie, PhD	PhD - Behavioral and Brain Sciences (Experimental Psychology)	University of Georgia	goodie@uga.edu	The Georgia Decision Lab is dedicated to the multidisciplinary area of judgment and decision making. Current research interests include the role of control in the origin, maintenance, prevention, and treatment of gambling disorder.
Lindsay Ham, PhD	PhD – Clinical Psychology	University of Arkansas	lham@uark.edu	Research interests in social anxiety & alcohol comorbidity; college substance misuse (especially cognitive, social, and cultural factors related to use), alcohol & sexual assault. Lab webpage: http://lasar.uark.edu .

Faculty	Graduate Program Degree Level	Location	Email	Extra Info
Jonathan Hammersley, PhD	M.S. – Clinical and Experimental Psychology	Western Illinois University	jjh135@wiu.edu	Each year I take 2 graduate students in my lab. We work on projects relating to patterns of addictive behaviors and mental health, as well as neurobiological and psychological individual differences in smoking and other drug use. We offer a limited number of assistantships and tuition waivers within the department or on campus to Master's students.
Craig Henderson, PhD	PhD – Clinical Psychology	Sam Houston State University	chenderson@shsu.edu	Research interests in the relation between physical activity and alcohol use and exercise-based interventions for alcohol use. Additional interests in adolescent substance abuse treatment, particularly family-based treatments.
David Hodgins, PhD	MSc and PhD in Clinical Psychology	University of Calgary	dhodgins@ucalgary.ca	Research interests in disordered gambling, brief treatment, comorbidity. http://www.addiction.ucalgary.ca/
Derek Iwamoto, PhD	PhD – Counseling Psychology	University of Maryland - College Park	diwamoto@umd.edu	Research interest in ethnically/racially diverse college students and alcohol use; gender-relevant issues and alcohol use; the role of cultural identity and gender socialization including how masculine and feminine norm relates to alcohol use and related problems.
Elizabeth Katz, PhD	MA – Clinical Psychology	Towson University	ekatz@towson.edu	Research interests in addictive behaviors broadly defined including alcohol, drugs, and behavioral addictions.
Cathy Lau-Barraco, PhD	PhD – Clinical Psychology	Old Dominion University	cbarraco@odu.edu	Psychosocial determinants of drinking; brief interventions; student and nonstudent emerging adult populations.

Faculty	Graduate Program Degree Level	Location	Email	Extra Info
Robert Leeman, PhD	Ph.D. in Health Behavior	University of Florida	robert.leeman@ufl.edu	primary research interest is in relationships between various difficulties with self-control and addictive behaviors, particularly alcohol, tobacco and cocaine/opioid co-use. We test new interventions using human laboratory and randomized controlled trial approaches. Website: http://heb.hhp.ufl.edu/index.php/about-2/departement-directory/leeman-robert/
Thad Leffingwell, PhD	PhD – Clinical Psychology	Oklahoma State University	thad.leffingwell@okstate.edu	Research interests focuses on brief interventions, including Motivational Interviewing, and utilizing technology to deliver brief interventions and measure outcomes. Populations of interest include college students, tobacco users, and persons living with HIV.
Michael Madson, PhD	M.A./PhD – Counseling Psychology	University of Southern Mississippi	michael.madson@usm.edu	Research interests include college student alcohol use and protective behavioral strategies, motivational interviewing.
Jessica Martin, PhD	PhD – Counseling Psychology	University at Albany - SUNY	jlmartin@albany.edu	Research interests in college student drinking & other addictive behaviors among college students and adults (e.g. prescription drug abuse, eating disorders).
Dennis McChargue, PhD	PhD – Clinical Psychology	University of Nebraska – Lincoln	dmcchargue2@unl.edu	My research foci are three fold: (1) psychological factors (e.g., comorbid mental health) that influence addiction and addiction treatment, (2) efficacy of brief alcohol interventions (e.g., sleep intervention, sexual violence intervention, protective behavioral strategies) that target alcohol-related harm among college students, and (3) social-cognitive mechanisms that influence the probability of sexual aggression among male college binge drinkers.

Faculty	Graduate Program Degree Level	Location	Email	Extra Info
James Murphy, PhD	PhD – Clinical Psychology	University of Memphis	jgmurphy@memphis.edu	Research interests include addictive and health risk behaviors; behavioral economic and decision making processes related to addiction, and addictive behavior change; brief interventions with young adult populations including college students and military veterans; mechanisms of health and addictive behavior change.
Clayton Neighbors, PhD	PhD – Social Psychology	University of Houston	cneighbo@central.uh.edu	Research focuses on social-motivational influences on addictive behaviors and developing novel brief interventions incorporating social norms, personalized feedback, expressive writing, dynamic friendship networks, context-specific influences, and religious/spiritual influences. Training is student-oriented and prepares students for traditional academic or applied research positions doing work that is meaningful, rigorous, and fun. http://www.uh.edu/class/psychology/social-psych/research/social-influences/
Nora E. Noel, PhD	PhD – Clinical Psychology	University of North Carolina- Wilmington	noeln@uncw.edu	Brand New Ph.D. Program, beginning in August, 2017. This program takes the place of our previous very successful Master's Program in Substance Abuse Treatment Psychology. Students earn a Ph.D. in Clinical Psychology with a specialty area in Substance Use and Co-Occurring Disorders. Research emphasis will be in the area of substance use and abuse.

Faculty	Graduate Program Degree Level	Location	Email	Extra Info
Roisin O'Connor, PhD	M.A./PhD – Clinical Psychology	Concordia University, Montreal, Quebec	Roisin.OConnor@Concordia.ca	Research interests include personality and cognitive risk factors of young adult alcohol use.
Nancy A. Piotrowski, PhD	PhD – Psychology	Capella University, online	nancy.piotrowski@capella.edu	This is a research PhD; it is not a clinical PhD program. My research interests focus on motivation to change, measurement, and public and professional educational issues related to a broad variety of addictive behaviors and behaviors with addictive features, as well as complicating features related to comorbid conditions.
Mark A. Prince, PhD	PhD – Counseling Psychology M.A. – Addictions Counseling	Colorado State University	Mark.Prince@colostate.edu	Identifying mechanisms of behavior change in substance use disorders, developing interventions targeting mechanisms of behavior change, and advanced quantitative methods. Note: CSU is planning to begin enrolling students in a terminal master's program in addictions counseling. Graduates will be certified to practice in the state of Colorado.
Jennifer Read, PhD	PhD – Clinical Psychology	SUNY – Buffalo	jpread@buffalo.edu	I am interested in the etiology of and intervention for problematic alcohol and other substance use in young adults. My most recent work has focused around two interests: (1) psychosocial determinants of young adult alcohol use, and (2) co-occurrence of posttraumatic stress symptoms and substance use.

Faculty	Graduate Program Degree Level	Location	Email	Extra Info
Lindsey Rodriguez, PhD	PhD – Social Psychology	University of New Hampshire	Lindsey.rodriquez@unh .edu	Development and evaluation of brief interventions for alcohol use in college students; couples and addictive behaviors; development of couple-level or dyadic interventions for drinking.
Monica C. Skewes, PhD	PhD - Psychological Science	Montana State University	monica.skewes@ montana.edu	Addictive behaviors, sexual assault prevention, ethnic minority health disparities, and community-based participatory research.
Sherry H. Stewart, PhD	PhD – Clinical Psychology; MSc -- Psychiatry Research	Dalhousie University	sstewart@dal.ca	Interests in implicit cognition, personality, motives, co-morbidity of addictive disorders with emotional disorders, PTSD.
Jennifer Veilleux, PhD	PhD	University of Arkansas	jcveille@uark.edu	My lab studies self-regulation and emotion- regulation processes in the context of addictive behaviors, primarily smoking and alcohol use, as well as with other behaviors that overlap with substance use (e.g., binge eating, non-suicidal self- injury). I am particularly interested in craving and motivational processes associated with failures of self-regulation. http://wordpress.uark.edu/jcveille/
Peter Vik, PhD & Sarah Bowen, PhD	PhD – Clinical Psychology	Pacific University (Oregon)	pwwik@pacificu.edu; bowen@pacificu.edu	We have a new scientist-practitioner PhD program in clinical psychology. The program will be admitting students for its 5rd class in 2017, and we are applying to APA for accreditation this year. The program embraces two strengths: mindfulness therapy, and behavioral neuroscience.

Faculty	Graduate Program Degree Level	Location	Email	Extra Info
Jeremiah Weinstock, PhD	PhD – Clinical Psychology	Saint Louis University	jweinsto@slu.edu	Research interests in gambling disorder and other addictive behaviors, including treatment outcome for interventions such as motivational interviewing, CBT, contingency management, and exercise.
Katie Witkiewitz, PhD	PhD – Clinical Psychology	University of New Mexico	katiew@unm.edu	I am particularly interested in recruiting a graduate student who has interest or experience in latent variable modeling, neuroimaging methods (including fMRI and EEG), and/or mindfulness-based interventions.

Faculty Not Taking Students This Upcoming Year (2017-2018)

Faculty	Graduate Program Degree Level	Location
Matthew Martens, PhD	PhD – Counseling Psychology	University of Missouri
Barbara McCrady, PhD	PhD – Clinical Psychology	University of New Mexico
Jeffrey Simons, PhD	PhD – Clinical Psychology	University of South Dakota
Robert Stephens, PhD	PhD – Clinical Psychology	Virginia Tech
Dave Stewart, PhD	PhD – Clinical Psychology	Seattle Pacific University
Edelgard Wulfert, PhD	PhD – Clinical Psychology	University at Albany - SUNY
